

FOOD DIARY

Please Circle: Monday Tuesday Wednesday Thursday Friday Saturday Sunday

Child's Name: _____ Date: _____

Directions: Your child's doctor has recommended you complete a 3-day food diary for your child.

We recommend completing one weekend day and two week days to get a good nutritional assessment for your child.

Please retain the completed sheets and bring them back to review at your next appointment.

- Fill out a new diary daily and record everything your child consumes
- Foods as well as beverages are to be logged daily
- Update the log as your child eats or drinks (at a minimum, three times daily)
- Record the appropriate serving sized consumed (if your child eats ½ cup of cottage cheese two tally marks would be required)
- Three full days must be completed and returned to your healthcare professional
- The AAP recommends more frequent monitoring of kids who are malnourished to assess their progress and catch up growth¹

Portion Size Guide:

Here are some easy comparisons to help you figure out how many servings your child has eaten.

1 cup = base-
ball

1 oz or 2 tbsp
= golf ball

1 tbsp =
